| IV. Appointments of the Basil- ian Fathers of Toronto, 1922-1942..... | 88 |
| Appointments in France, 1863-64. | 173 |
| Index..... | 176 |

The annual appointments of the Basilian Fathers have been published in the Basilian Annals since 1943. The purpose of this volume is to provide a convenient list of earlier appointments, from the arrival of Father Patrick Moloney in September of 1850 down to and including those for the year 1942-43.

The list has been divided into four parts. Parts I and II cover the years from 1850 to 1873-74 and give appointments made by the Superior General in France. The lists for these two parts have been put together from contemporary records in Canada.

Part III gives the appointments of the Province of Canada from 1874-75 to 1921-22 inclusive. Appointments for the Vice-Province of the United States, which had a brief existence between 1910 and 1912, have been included in this part. These appointments were made by the Provincial with varying degrees of consultation and confirmation by the Superior General and his Council.

Official lists were available for the years 1900-01, and 1916-17 to 1921-1922. Appointments for other years have been taken from the Official Catholic Directory and have been checked, when possible, with available contempor-

ary records, including the minutes of Provincial Council meetings, the baptismal registers of Assumption Parish, Windsor; Holy Rosary Parish, Toronto; St. Anne's Parish, Detroit; and St. Mary's of the Assumption Parish, Owen Sound.

The appointments in Part IV are those of the Basilian Fathers of Toronto, 1922-23 to 1942-43. For this part official lists were available in the General Archives of the Basilian Fathers.

The appointments of priests and scholastics, born in Canada and the United States, to Houses in England and France have been treated as appointments of the Province of France and therefore have not been included in these lists.

The listing or the omission of the names of priests on leave of absence conforms to the practice of the official lists. Likewise the inclusion of the names of confreres belonging to the Province of France, even though resident in America, also follows the official lists. The policy in such matters, especially during the uncertain years from 1910 to 1922, varied from one year to the next.

Appointments taken from lists in the Official Catholic Directory. For some years, a member would be listed twice, because one House sent in a list based on their staff during the previous year, and the other on the staff expected during the coming year. An attempt has been made to check these lists with such records as are available and with biographical data.

It should be pointed out that official lists were frequently changed after publication to meet emergencies arising from illness, death and changes in enrolment. Few such changes have been made in the lists in this volume. Therefore these appointments require detailed checking with local records before a completely accurate list can be compiled.

Present Day Houses

VIII

- Aquinas Institute, Rochester, 101, 102,
109, 112, 116, 143ff
